

Motion Pictures of the Fremont Tractor Show Making a Hit

The moving pictures of the tractor show at Fremont have been making a

great hit at the Mid-west Implement show. O. W. Holt of the Holt Feature Film company of Manhattan, Kan., took the pictures last summer at the Tractor show at Fremont under the direction of the Twentieth Century Farmer, which publication staged the big tractor demonstration. Three thousand feet of reel are shown

covering the activities of the show from the day the Wallis Cub tractor arrived in Fremont on its long cross-country run from Cleveland to the day the show broke up and the tractors started chugging out of town. A little drama is interwoven to lend spice to the feature. Mr. Holt has shown these pictures at the Kansas Agricultural college, and now

has calls for the pictures at Montana Agricultural college, Wisconsin Agricultural college, and other colleges where the pictures are wanted for their educational value in the departments of agricultural engineering. Mr. Holt has been asked now to follow the circuit of the National Power Farming Demonstration next summer, and

take pictures for the demonstrations from the first show at Dallas in July to the windup in New York in September.

TRUCKS IN BASEMENT AT COMING AUTO SHOW

An expense of some \$200, a lot of work and considerable annoyance will be

escaped by the Omaha Automobile Show association this year at the annual motor car exhibit, February 12 to 24, because of the remodeling of the basement of the Auditorium. Truck displays are located in the Auditorium basement and it has been necessary in the past to put in an additional floor for the heavy vehicles. But now a cement floor which will

hold the trucks has been laid in the Auditorium basement and the show will not be bothered.

Burkett to Be Scout.
Jesse Burkett, once a famous blitzer in the big show and a prosperous, successful manager in the minor leagues, will blossom forth as a scout for the Cleve-
